

Philippe Landry

Canadian Institute for Theoretical Astrophysics
University of Toronto • 60 St. George Street, 14th Floor • Toronto, ON M5S3H8
plandry@cita.utoronto.ca • pgjlandry@gmail.com • landryp.github.io

CURRENT POSITION

POSTDOCTORAL FELLOW • UNIVERSITY OF TORONTO

Sep 2021 - Present

Postdoctoral fellow at the **Canadian Institute for Theoretical Astrophysics**; member of the **LIGO Scientific Collaboration** and **Cosmic Explorer**

RESEARCH INTERESTS

Gravitational waves • Neutron stars • Compact object populations • General relativity • Ultra-dense matter • Relativistic tides • Post-Newtonian theory • Perturbation theory

EDUCATION

PHD, PHYSICS

UNIVERSITY OF GUELPH • 2017

Advisor: Eric Poisson

Thesis: Tidal response of a rotating neutron star in general relativity

MSC, PHYSICS

UNIVERSITY OF GUELPH • 2014

Advisor: Eric Poisson

Thesis: Tidal deformations of compact bodies in general relativity

BSC (HONS.), PHYSICS

QUEEN'S UNIVERSITY • 2012

Advisor: Kayll Lake

Thesis: McVittie solution with a negative cosmological constant

RESEARCH EXPERIENCE

POSTDOCTORAL ASSOCIATE • CALIFORNIA STATE UNIVERSITY, FULLERTON

Sep 2019 - Aug 2021

Postdoctoral research associate at the **Nicholas & Lee Begovich Center for Gravitational Wave Physics & Astronomy**; co-authored the NSF-mandated horizon study for **Cosmic Explorer**

POSTDOCTORAL SCHOLAR • UNIVERSITY OF CHICAGO

Sep 2017 - Aug 2019

Postdoctoral scholar at the **Enrico Fermi Institute** and associate fellow at the **Kavli Institute for Cosmological Physics**; worked in gravitational wave astronomy within the **LIGO Scientific Collaboration**

GRADUATE RESEARCH ASSISTANT • UNIVERSITY OF GUELPH

Sep 2012 - Aug 2017

Contributed to the development of the theory of relativistic tides in compact binary systems, including gravitomagnetic and spin effects

UNDERGRADUATE RESEARCHER • QUEEN'S UNIVERSITY

Sep 2011 - Apr 2012

Studied the global structure of an exact solution in general relativity for an undergraduate thesis

UNDERGRADUATE RESEARCHER • ROYAL MILITARY COLLEGE OF CANADA

May - Aug 2011

Worked on an observational space science project about derelict satellites for **Defence Research & Development Canada** as part of an NSERC undergraduate student research award

RESEARCH GRANTS

NSF RUI AWARD • NATIONAL SCIENCE FOUNDATION

Jul 2021 - Present

Co-PI of the NSF Research in Undergraduate Institutions grant PHY-2110441, “RUI: Neutron-Star Matter in the LIGO A+ Era and Beyond,” developed with PI Jocelyn Read and funded at \$225k over three years to support research at Cal State Fullerton

FELLOWSHIPS & AWARDS

NSERC POSTDOCTORAL FELLOWSHIP • NSERC

Sep 2017 - Aug 2019

Fellowship awarded by the Natural Sciences & Engineering Research Council of Canada for research potential and academic achievement; held at the University of Chicago

DTP/WITP THESIS PRIZE • CANADIAN ASSOCIATION OF PHYSICISTS

Jun 2018

Award for best PhD thesis by a graduate of a Canadian university in the field of theoretical physics

ALEXANDER GRAHAM BELL CANADA GRADUATE SCHOLARSHIP • NSERC

May '16 - Aug '17

Scholarship awarded for research potential and academic achievement; held at the University of Guelph

DEAN'S SCHOLARSHIP • UNIVERSITY OF GUELPH

Sep 2012 - Aug 2017

Scholarship for academic achievement

HARTLE AWARD • GR21

Jul 2016

Award for best student talk in section of GR21 gravity conference at Columbia University

ONTARIO GRADUATE SCHOLARSHIP • PROVINCE OF ONTARIO

May 2015 - Apr 2016

Scholarship for academic achievement held at the University of Guelph

BEST STUDENT TALK • 17TH EASTERN GRAVITY MEETING

Jun 2014

Award for best student talk at gravity conference at West Virginia University

UNDERGRADUATE STUDENT RESEARCH AWARD • NSERC

May - Aug 2011

Research fellowship held at the Royal Military College of Canada

TEACHING, SERVICE & OUTREACH

EDITORIAL TEAM CHAIR • LVK O4 MULTIMESSENGER DISCOVERY PAPER

Jul 2023 - Present

Lead the paper-writing team responsible for reporting the discovery of a neutron star merger with an electromagnetic counterpart during the fourth LIGO-Virgo-KAGRA observing run

CO-CHAIR • LVK EXTREME MATTER R&D GROUP

Jul 2022 - Present

Lead the LIGO-Virgo-KAGRA Collaboration's working group on neutron stars; manage related collaboration analyses, code review and papers, chair biweekly group meetings

- COMMITTEE MEMBER • CITA VISITOR COMMITTEE** Sep 2022 - Present
Nominate, invite and coordinate visits for CITA seminar speakers
- GROUP LEADER • CITA FOCUS GROUP ON GRAVITATIONAL WAVES** Sep 2021 - Present
Founded gravitational-wave astronomy discussion group for researchers at CITA and national affiliates; coordinate and lead biweekly group meetings
- REFEREE • AAS, PHYSICAL REVIEW, NATURE, SCIENCE** Sep 2017 - Present
Referee scientific articles for The Astrophysical Journal, The Astrophysical Journal Letters, Physical Review D, Physical Review Letters, Nature and Science
- CO-ORGANIZER • INT WORKSHOP** Jul 2022 - Aug 2024
Serve as one of the main organizers for the Institute for Nuclear Theory workshop “EOS measurements with next-generation gravitational-wave detectors” scheduled for Aug 2024
- SCIENTIFIC ORGANIZING COMMITTEE MEMBER • PAX VIII** Feb - Aug 2022
Served on the scientific organizing committee for the 8th Physics & Astrophysics at the Extreme (PAX) workshop at MIT; organized and chaired a panel on the neutron star equation of state
- UNDERGRADUATE RESEARCH ADVISOR • UNIVERSITY OF TORONTO** Sep 2021 - Aug 2022
Supervised a summer undergraduate research fellowship project, and two undergraduate research theses in neutron star astrophysics for the Astronomy & Astrophysics Department’s AST425 course
- LECTURER • LIFELONG LEARNING LECTURES** Sep 2018 - Dec 2020
Participated in lifelong learning programs, giving public outreach talks on the topic of tides in Chicago and on the topic of gravitational waves in Fullerton
- CO-EDITOR • HUMANS OF LIGO BLOG** Jul 2018 - Dec 2020
Conducted interviews and curated posts for public outreach blog profiling individual LIGO scientists
- SPACE VISUALIZATION LAB PRESENTER • ADLER PLANETARIUM** Jan 2018 - Aug 2019
Regularly volunteered as science presenter for Astronomy Conversations public outreach program
- LECTURER • UNDERGRADUATE PHYSICS READING SEMINAR** Oct - Dec 2018
Helped design an interest-based non-credit course on computational methods in gravitational wave astrophysics for advanced undergraduates; delivered two lectures and devised a final assignment
- COMMITTEE MEMBER • GUELPH/PERIMETER INSTITUTE FACULTY SEARCH** Jan 2016 - Apr 2017
Student representative on the joint University of Guelph/Perimeter Institute search committee for two faculty positions in theoretical physics

SEMINAR SERIES ORGANIZER • UNIVERSITY OF GUELPH

Sep 2014 – Apr 2017

Co-founded, coordinated and secured funding for a series of outreach talks delivered by graduate students and aimed at physics undergraduates; also personally delivered several talks

COMMITTEE MEMBER • GWPI COORDINATING COMMITTEE

Sep 2014 – Apr 2017

Student representative on the graduate program committee for the Guelph-Waterloo Physics Institute and member of the 2016 institute director search committee

TEACHING ASSISTANT • UNIVERSITY OF GUELPH

Sep 2012 – Apr 2017

Served as a teaching assistant for undergraduate courses in introductory physics, mechanics and electromagnetism, leading tutorials, supervising laboratories, grading assignments and exams, and occasionally delivering lectures

AFFILIATIONS**SCIENTIFIC COLLABORATIONS**

LIGO Scientific Collaboration • Cosmic Explorer

PROFESSIONAL SOCIETIES

American Physical Society • American Astronomical Society • International Society on General Relativity & Gravitation • Canadian Association of Physicists

SKILLS**LANGUAGES**

English • French • Italian

PROGRAMMING

Python • C

COMPUTER ALGEBRA

Mathematica • Maple • Matlab

MENTORING**GRADUATE STUDENTS**

Diego Montalvo, **University of Toronto**

May 2023 – Present

Sunny Ng, **California State University, Fullerton**

May 2022 – Present

Marc Penuliar, **California State University, Fullerton**

Sep 2019 – April 2023

Mary Usufzy, **California State University, Fullerton**

Sep 2021 – April 2022

Bhaskar Biswas, **IUCAA**

Mar 2019 – Dec 2020

Bharat Kumar, **Institute of Physics, Bhubaneswar**

Sep 2017 – Dec 2018

UNDERGRADUATE STUDENTS

Kyle Wong, **University of Toronto**

May 2023 – Present

Emily Wuchner, **California State University, Fullerton**

Sep 2021 – Present

Utkarsh Mali, **University of Toronto**

May 2022 – Aug 2022

Katherine Karababas, **University of Toronto**

Sep 2021 – Apr 2022

Kunal Mehta, **University of Toronto**

Sep 2021 – Apr 2022

Abel Jesus Hernandez, **California State University, Fullerton**

Jan 2020 – Apr 2022

Jérémie Gagnon-Bischoff, **Perimeter Institute**

May – Aug 2017

TALKS

INVITED

- ¹ The densest stuff in the universe: probing neutron star matter with gravitational waves. **Canadian Association of Physicists Congress**, University of New Brunswick (2023).
- ² Dense-matter science with next-generation compact binary inspirals. **APS April Meeting**, Minneapolis MN, online (2023).
- ³ Neutron star science with gravitational waves. **CGCA Seminar**, University of Wisconsin-Milwaukee (2023); **UBC Gravity Seminar**, University of British Columbia (2023); **LANL Astrophysics Seminar**, Los Alamos National Laboratory (2023).
- ⁴ Cosmic Explorer and next-generation ground-based gravitational-wave astronomy. **Rencontres du Vietnam: Theory Meeting Experiment**, Quy Nhon, Vietnam (2023).
- ⁵ Probing neutron stars with gravitational waves. **Department of Physics, Engineering Physics & Astronomy Seminar**, Queen's University (2022).
- ⁶ Prospects and challenges for dense matter studies with gravitational waves. **ACFI Workshop: The Future of Neutron Rich Matter, From Neutron Skins to Neutron Stars**, University of Massachusetts - Amherst (2022).
- ⁷ Extreme matter in Cosmic Explorer. **GWPAC 10-Year Anniversary Meeting: Exploring Extreme Matter and Spacetimes with Gravitational Waves**, Cal State Fullerton (2022).
- ⁸ Panel: Nuclear physics. **PAX VIII Workshop**, MIT (2022).
- ⁹ Gravitational-wave constraints on neutron star matter from the third LIGO-Virgo observing run. **AAS 240**, Pasadena CA, online (2022).
- ¹⁰ The high-density equation of state and maximum mass of neutron stars. **INT Workshop 20R-1b**, Institute for Nuclear Theory (2022).
- ¹¹ Neutron star binaries: mergers, matter and modeling. **Storming the Gravitational-Wave Frontier**, Kavli Institute for Theoretical Physics (2022).
- ¹² Probing neutron star matter with gravitational waves. **CITA Seminar**, CITA, online (2021); **UVA Gravity Seminar**, University of Virginia, online (2021).
- ¹³ Mapping the QCD phase diagram with LIGO's neutron star mergers. **Nuclear & Particle Physics Seminar**, Rice University, online (2021).
- ¹⁴ Panel: Neutron stars and dense matter. **JINA Horizons Workshop**, Joint Institute for Nuclear Astrophysics, online (2020).
- ¹⁵ Dense matter science with Cosmic Explorer. **1st CE Conference**, Penn State, online (2020).
- ¹⁶ Compact binaries as probes of dense matter and dark matter. **Snowmass 2021 Community Planning Meeting**, online (2020).
- ¹⁷ Panel: QCD matter in equilibrium. **From Heavy Ion Collisions to Neutron Stars**, University of Illinois at Urbana-Champaign, online (2020).

- ¹⁸ GW190814: An unexpected compact binary coalescence from the mass gap. **DESY Astroparticle Seminar**, DESY Zeuthen, online (2020).
- ¹⁹ GW190814: Gravitational waves from the coalescence of a $23 M_{\odot}$ black hole with a $2.6 M_{\odot}$ compact object. **LIGO-Virgo-Kagra Webinar**, online (2020).
- ²⁰ Insights on neutron-star matter from gravitational waves, hotspots and massive pulsars. **CaJAGWR Seminar**, Caltech (2020).
- ²¹ Neutron star tides and quasi-universal relations. **Merging Visions**, Kavli Institute for Theoretical Physics (2019).
- ²² New developments in gravitational-wave inference of the neutron star equation of state. **IUCAA Seminar**, Inter-University Center for Astronomy & Astrophysics (2019).
- ²³ Inferring the neutron star equation of state from gravitational waves: a nonparametric approach. **Center for Gravitation, Cosmology & Astrophysics Seminar**, University of Wisconsin - Milwaukee (2018).
- ²⁴ Tides in spinning neutron star binaries. **Theory Canada 13**, St Francis Xavier University (2018).
- ²⁵ Dynamical tidal response of a rotating neutron star. **Canadian Institute for Theoretical Astrophysics Seminar**, University of Toronto (2016).
- ²⁶ Photometry of derelict GEO and GPS satellites for rotation rate characterization. **Physics Department Colloquium**, Royal Military College (2011).

CONTRIBUTED

- ²⁷ The mass distribution of neutron stars in gravitational-wave binaries. **APS April Meeting**, New York NY (2022).
- ²⁸ The Cosmic Explorer Horizon Study: Science, observatories, and community. **SACNAS National Diversity in STEM Digital Conference**, online (2021).
- ²⁹ Distinguishing the nature of the lighter compact object in the binary merger GW190814. **APS April Meeting**, online (2021).
- ³⁰ Constraints on the neutron-star equation of state with gravitational-wave and pulsar observations. **APS April Meeting**, online (2020).
- ³¹ A nonparametric approach to gravitational-wave inference of the neutron star equation of state. **GR22 + Amaldi13**, University of Valencia (2019).
- ³² Inferring neutron star properties from GW170817 with universal relations. **28th Midwest Relativity Meeting**, University of Wisconsin - Milwaukee (2018); **APS April Meeting**, Denver CO (2019).
- ³³ Rotational-tidal phasing of the binary neutron star waveform. **18th Atlantic General Relativity Meeting**, St Francis Xavier University (2018).
- ³⁴ Extended I-Love relations for slowly rotating neutron stars. **27th Midwest Relativity Meeting**, University of Michigan (2017); **APS April Meeting**, Columbus OH (2018).

- ³⁵ Dynamical tidal response of a rotating neutron star. **GR21**, Columbia University; **26th Midwest Relativity Meeting**, Perimeter Institute (2016); **APS April Meeting**, Washington DC (2017).
- ³⁶ Tidal deformation of a slowly rotating compact body. **International Conference on Black Holes**, University of Toronto; **General Relativity & Gravitation: A Centennial Perspective**, Penn State; **25th Midwest Relativity Meeting**, Northwestern University (2015).
- ³⁷ Tidal deformation of an irrotational fluid body. **18th Eastern Gravity Meeting**, Rochester Institute of Technology; **Fields Institute Focus Program on General Relativity**, University of Toronto (2015).
- ³⁸ Relativistic theory of surficial Love numbers. **17th Eastern Gravity Meeting**, West Virginia University; **24th Midwest Relativity Meeting**, Oakland University (2014).
- ³⁹ Tides in higher-dimensional Newtonian gravity. **16th Eastern Gravity Meeting**, University of Toronto; **23rd Midwest Relativity Meeting**, University of Wisconsin - Milwaukee (2013).

PUBLIC

- ⁴⁰ Listening for black holes and neutron stars: LIGO's recent gravitational wave discoveries. **Osher Lifelong Learning Institute Lecture**, Cal State Fullerton (2020).
- ⁴¹ Tides in the solar system and the universe. **Art of Science Lecture Series**, Agitator Art Gallery, Chicago (2019).
- ⁴² Tides: from the seas to the stars. **Lifelong Learning Lecture Series**, Chicago Cultural Center (2018); Sulzer Regional Library, Chicago (2019).
- ⁴³ Neutron stars: dense, strange and not too bright. **Astronomy on Tap**, Marz Community Brewing, Chicago (2018).
- ⁴⁴ Gravitational waves and transient astronomy: a discussion of GW170817. **Public Lecture**, University of Chicago (2017).

PRESS

- ¹ C. Sasaki & A. Hody, Three CITA astrophysicists look forward to new gravitational wave discoveries. **UofT A&S News**, 18 Jul 2023.
